

# FRUIT & VEG WASH

## FRUIT and VEGETABLE WASH

### **DESCRIPTION**

Challenge Chemicals Australia have formulated an easy to use, biodegradable, concentrated product for washing fruit and vegetables.

Recommended for washing conventional and organic produce. Removes soiling, manures, fertilisers, waxes, herbicides and pesticides from surface of fruit and vegetables.

FRUIT and VEG WASH has a neutral pH and is kind to the skin. However where prolonged use is experienced, gloves should be worn as all detergents remove the skins natural oils and cause dryness of the skin.

### **FEATURES & BENEFITS**

- No phosphates
- No chlorine
- Readily Biodegradable
- Septic & Sewerage safe
- Safe to use

**USES**

- Removes wax, Pesticides, Herbicides, Chemicals, Animal soiling and Dirt
- Extends the life of fruit and vegies

**DIRECTIONS and DILUTIONS**

Add 5mls to a half a sink of fresh water. Wash fruit and vegetables in solution. Rinse off with fresh water. Allow produce to dry then store.

**WARNING**

Avoid eye contact.

**FIRST AID**

If poisoning occurs contact a doctor or Poisons Information Centre. PH 13 11 26. If swallowed do not induce vomiting, give a glass of water and seek medical advice. For eye contact, irrigate with water for 15 minutes. If irritation persists seek medical advice.

**PACKAGING**

**FRUIT and VEG** is available in 25 and 200 litre containers.
