

E.M.C.

ENZYMATIC CLEANING OF R.O. MEMBRANE

DESCRIPTION

E.M.C. is a formulated blend of water softeners, emulsifiers, surfactants, and enzymes for the cleaning of ultra Filtration membranes composed of polysulphone, fluoro polymer or cellulose acetate.

DIRECTIONS

Application rates will vary depending on soiling, membrane type and filter plant configuration.

Observe the filter cleaning instructions issued by the membrane filter manufacturer.

As a guide observe the following parameters when cleaning.

Concentration:a) 60 to 90 minutes whilst circulating

b) Overnight if soak application

Temperature:30 to 55oC

Ensure membrane filter is flushed thoroughly with potable water after use.

WARNING

Service with products of technology

Avoid skin and eye contact and breathing dust.

FIRST AID

If poisoning occurs contact a doctor or Poisons Information Centre. PH 13 11 26. If swallowed do not induce vomiting, give a glass of water and seek medical advice.
