

ODORSOLV

DRAIN CLEANER AND DEODORANT

DESCRIPTION

ODORSOLV is a complete blend of natural emulsifiers, paraffinic solvents, dispersants and surfactants formulated for the cleaning and deodorising of grease traps, sullage pits, septic tanks, drains, waste pipes etc.

ODORSOLV actually destroys the residues or products producing the odour thereby offering long term odour free operation of the system.

ODORSOLV also assists the operation and efficiency of grease traps, sullage pits and septic tanks.

ODORSOLV can also be used to replace unsightly deodorant blocks which can cause full or partial blockages to pipes and bends.

Daily treatment will keep the waste pipe clean and free from fatty build up from body wastes, deodorise the entire area and leave a lasting fragrance.

APPLICATION

For Clogged Systems Add 6 litres per sq metre, pour directly onto the surface. Allow to stand for 1 hour and then flush with water.

For Grease Traps Add 1 litre per week poured directly down drain.

For Odour Control Dilute 1 part to 100 parts water and pour down the area.

Urinal Deodorising 1/2 cup per day down the waste pipe.

WARNING

Avoid skin and eye contact.

FIRST AID

If poisoning occurs contact a doctor or Poisons Information Centre. PH 13 11 26. If swallowed do not induce vomiting give a glass of water and seek medical attention. If skin contact occurs, remove contaminated clothing and wash skin thoroughly. For eyes, irrigate with water for 15 minutes and seek medical advice.

PACKAGING

ODORSOLV is available in 5 and 25 litre containers.
