

# CW PRE SOAK HIGH

## STRONG ALKALINE FORMULA FOR AUTOMATIC AND MANUAL USE

### DESCRIPTION

CW PRESOAK HIGH is a high quality, strong alkaline liquid pre-soak, formulated for superior performance in Touchless Automatics. This formulated product reforms with the best liquids in the market. Flexible for use in any pre-soak applications.

CW PRESOAK HIGH IS A CLEAR PRODUCT.

### DIRECTIONS

Dilute with water in ratio of 1:10 for cold water machines and 1:20 for hot. Apply with a spray applicator and hose off with a high pressure cleaner. Product can be hosed off immediately but best results when left for a few minutes.

Do not leave to dry on painted surfaces.

Is safe to use on most surfaces including reactive metals and can be used safely at recommended concentrations. Surfaces should be tested for colourfastness and other reactions. Undiluted product could effect some plastic surfaces but not after diluted with water.

### WARNING

Strong Alkaline liquid. Avoid skin and eye contact

**FIRST AID**

If poisoning occurs contact a doctor of poisons information centre. PH 13 11 26. If swallowed do not induce vomiting, give milk or water and seek medical advice. If skin contact does occur remove contaminated clothing and wash thoroughly with water. For eye contact, irrigate with water for 15 minutes and if irritation persists seek medical advice.

**PACKAGING**

CW PRESOAK HIGH is available in 15 and 200 litre containers.
