

## SAFETY DATA SHEET

### 1. IDENTIFICATION OF THE MATERIAL AND THE SUPPLIER

**Product Name:** CCA FLUSH

**Recommended use:** Toilet and Urinal Cleaner/Deodoriser

**Supplier:** Challenge Chemicals Australia  
**ACN:** 68 059 129 568  
**Street Address:** 6 Butcher Street  
KWINANA  
PERTH W.A. 6167

**Telephone:** (08) 9419 5577  
**Facsimile:** (08) 9419 4958

**Emergency Telephone number:** (08) 9419 5577 (7.00am to 4.30pm)  
0419 049 003

### 2. HAZARDS IDENTIFICATION

Non Hazardous according to Australian WHS regulations.  
No signal words, pictograms, hazard or precautionary statements have been allocated.  
No information provided for other hazards.

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

**Recommended use:** Toilet and urinal cleaner/deodoriser.

**Appearance:** Teal coloured thin liquid with spice fragrance.

CHEMICAL ENTITY	CAS NO.	EC Number	Content
All ingredients determined to be Non Hazardous.	Not Available	Not Available	100%

All the constituents of this materials are listed on the Australian Inventory of Chemical Substances (AICS).

### 4. FIRST AID MEASURES

Poison Information Centres in each State capital city can provide additional assistance for scheduled poisons.  
Ring 13 11 26

**Ingestion:** Immediately rinse mouth with water. Give water to drink. Do NOT induce vomiting. If vomiting occurs, place victim's face downwards, head lower than hips to prevent vomit entering lungs. Seek immediate medical assistance.

**Eye Contact:** Immediately irrigate with copious quantities of water for at least 15 minutes. Eyelids to be held open. Seek medical assistance if irritation persists.

**Skin Contact:** Immediately wash contaminated skin with plenty of water. For gross contamination, immediately drench with water and remove clothing. Remove contaminated clothing and wash before re-use.

**Inhalation:** Not a source of exposure requiring first aid.

**Important Symptoms:** See section 11 for more detailed information on health effects and symptoms.

**Notes to physician:** Treat symptomatically. Softcare A1 is a foaming agent.

## 5. FIRE-FIGHTING MEASURES

**Fire fighting further advice:** Not combustible. Fire fighters to wear self-contained breathing apparatus if risk of exposure to vapour or products of combustion.

**Suitable extinguishing media:** Water fog (or if unavailable fine water spray), foam, dry agent (carbon dioxide, dry chemical powder).

**Special Hazards:** Non combustible. May evolve toxic gases when heated to decomposition.

**Hazchem Code:** None allocated.

## 6. ACCIDENTAL RELEASE MEASURES

Slippery when spilt. Contain using sand and soil – prevent runoff into drains and waterways. Use absorbent (soil or sand, inert material, vermiculite). Collect and seal in properly labeled containers for disposal.

Wear personal protective equipment as detailed in section 8 of the SDS.

## 7. HANDLING AND STORAGE

**Storage:** Ensure containers are adequately labelled and sealed when not in use. Store in a cool area away from oxidising agents.

Before use carefully read the product label. Safe working practices are recommended.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

**National occupational exposure limits.**

No exposure standards entered for this product.

**Biological Limits:** No biological limits entered for this product.

As published by the National Occupational Health and Safety Commission (Worksafe Australia).

Peak limitation – a ceiling concentration which should not be exceeded over a measurement period which should be as short as possible but not exceeding 15 minutes.

This exposure standard is a guide to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. Exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

**Engineering Measures:** Avoid inhalation. Use in well ventilated area.

**Personal Protection Equipment:** Wear safety glasses/goggles and pvc/rubber gloves.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

Form / Colour / Odour: Teal coloured thin liquid with spice fragrance.

**Product Name:** CCA Flush

**Issued:** 16/11/2016

**Version:** A/1

Specific Gravity : 1.02  
Rel Vapour Density: Not determined  
Vapour Pressure : Not determined  
Flash Point: Not determined  
Flammability Limits: Not determined  
Autoignition Temp (C): Not determined  
% Volatile by Volume: 85  
Solubility in Water: 100%

Melting Point (C): Not applicable  
Boiling Point (C): Not determined  
Decomp. Point (C): Not determined  
Sublimation Point: Not applicable  
pH: 4.5  
Viscosity: Not determined  
Evaporation Rate: Not determined

## 10. STABILITY AND REACTIVITY

**Stability:** Stable

**Reactivity:** Carefully review all information provided below.

**Hazardous Polymerisation:** Will not occur.

**Conditions to Avoid:** Open flames, sparks and any other ignition sources.

**Materials to Avoid:** Incompatible with oxidizing agents.

**Hazardous Decomposition Products:** May evolve toxic gases when heated to decomposition.

## 11. TOXICOLOGICAL INFORMATION

**Main Symptoms:** No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms that may arise if the product is mishandled are:

**Acute Toxicity:** Based on the available data this product is expected to be of low toxicity.

**Ingestion:** Swallowing may result in nausea, vomiting, diarrhoea and abdominal pain

**Eye Contact:** A very mild eye irritant.

**Skin Contact:** Contact with skin may result in severe irritation. Repeated or prolonged skin contact may lead to irritant contact dermatitis.

**Inhalation:** Inhalation of mists may result in respiratory irritation and possible harmful corrosive effects.

**Sensitisation:** No sensitisation to skin or respiratory system.

**Mutagenicity Carcinogenicity and Reproductive Toxicity:** Not classified as a mutagen, carcinogen or reproductive toxin.

**Specific Target Organ Toxicity (STOT-RE & STOT-SE):** Not classified as causing organ damage from single exposure. Not classified as causing organ damage from repeated exposure.

**Aspiration Hazard:** Not classified as causing aspiration.

## 12. ECOLOGICAL INFORMATION

**Ecotoxicity:** No information provided.

**Bioaccumulative Potential:** No information provided.

**Persistence and Degradability:** No information provided.

**Mobility in Soil:** No information provided.

**Other adverse effects:** Not expected to cause harm to animal or plant life.

Avoid contaminating waterways.

### 13. DISPOSAL CONSIDERATIONS

Small spills maybe flushed to drain with copious amounts of water. Alternatively, normally suitable for disposal at approved land waste site.

Dispose of waste water according to local, state and federal regulations.

### 14. TRANSPORT INFORMATION

Not Classified as Dangerous Goods according to ADG7, IATA-DGR and IMDG codes.

**Environmental Hazards:** No information provided.

**Special Precautions:** No information provided.

**Hazchem Code:** None allocated.

### 15. REGULATORY INFORMATION

**Poison Schedule:** No poison schedule number allocated as per SUSMP criteria.

**Inventory Listings:** All ingredients are listed in the Australian Inventory of Chemical Substances, AICS.

**Classified and User Label Information:** Classification and labelling have been performed according to regulations.

### 16. OTHER INFORMATION

#### Abbreviations and Acronyms:

ADG7 -	Australian Code for the Transport of Dangerous Goods 7 <sup>th</sup> edition.
AICS -	Australian Inventory of Chemical Substance.
Cas No -	Chemical Abstracts Service Number (or CAS Registry Number).
EC Number -	European Community Number.
GHS -	Globally Harmonised System of Classification and Labelling of Chemicals.
Hazchem -	Emergency Action Code of Numbers and Letters that provide information to emergency services.
IATA-DGR -	Dangerous Goods Regulations by the International Air Transport Association.
IMDG -	International Maritime Code for Dangerous Goods.
PH -	Relates to Hydrogen Ion Concentration using a scale of 0 (High Acidic) to 14 (High Alkaline).
SDS -	Safety Data Sheet.
STOT-RE -	Specific Target Organ Toxicity (Repeated Exposure).
STOT-SE -	Specific Target Organ Toxicity (Single Exposure).
SUSMP -	Standard for the Uniform Scheduling of Medicines and Poisons.

This SDS summarises at the date of issue or best knowledge of the health and safety hazard information of the product, and in particular how to safely handle and use the product in the workplace. Since Challenge Chemicals Australia and its subsidiaries cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this SDS in the context of how the user intends to handle and use the product in the workplace.

If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this company.

Our responsibility for product as sold is subject to our standard terms and conditions, a copy of which is sent to our customers and is also available upon request.

**Date of SDS Preparation:** 16/11/2016

**Edition, Revision:** Edition A, Revision 1

**Reason for Issue:** GHS Update
