

NEUTRACARE

AUTOMATIC LAUNDRY SOUR

- **NEUTRACARE** is a balanced blend of static softeners and alkalinity neutralisers with a lasting fresh fragrance that adds freshness and softness to your wash.
- **NEUTRACARE** overcomes the harsh feel of fabrics produced when they are repeatedly washed.
- **NEUTRACARE** softens conditions and sanitises in the one operation.
- **NEUTRACARE** is suitable for use in Automatic Laundry Dispensing systems.

APPLICATION

1. Do not pour undiluted **NEUTRACARE** directly onto washing as discolouration may result.
2. Whilst using **NEUTRACARE** do not use bleach, blue or any other product in the rinse cycle.
3. If water is heavily discoloured, do not use **NEUTRACARE**.
4. Avoid excessive heat settings in dryers as the perfume can be affected.

HAND WASHING

1. Add 15ml of **NEUTRACARE** to each rinse. If one rinse, add 30ml **NEUTRACARE**. If woollens, add 30ml to final rinse.

AUTOMATICS/TWIN TUBS/WRINGER MACHINES

1. Add 30ml **NEUTRACARE** to final rinse.
2. NOTE: That one 25 litre drum cap is equivalent to 15ml of **NEUTRACARE**.

AUTOMATIC LAUNDRY DISPENSING SYSTEMS

1. Consult your Challenge Chemicals Aust consultant for specific recommendation.

WARNING

NEUTRACARE is acidic. Avoid skin and eye contact.

FIRST AID

If poisoning occurs contact a doctor or poisons information centre. PH 13 11 26. If swallowed do not induce vomiting, give a glass water and seek medical advice. If skin contact does occur remove contaminated clothing and wash thoroughly with water. For eye contact, irrigate with water for 15 minutes and if irritation persists seek medical advice.

PACKAGING
