

BACSTOP

ACIDIC TOILET BOWL AND URINAL CLEANER

Description

BACSTOP is a strong acidic cleaner for use on porcelain, vitreous enamel, ceramic, stainless steel, aluminium and terrazzo surfaces. BACSTOP is effective against a wide range of micro-organisms and has the capacity to reduce these organisms to acceptable levels.

Benefits

- ✓ Extra strong formulation
- ✓ Combination of acids and strong surfactants to rapidly clean and dissolve contaminants.
- ✓ For use in extreme hard water conditions
- ✓ Fast and effective

Where to Use

BACSTOP safely removes uric acid, encrustation, lime, scale, rust and organic deposits from toilet bowls, urinals, washroom fittings, shower recesses etc.

Directions

Toilet bowls, shower recesses, basins, washroom fittings : Use undiluted through a chemical spray/foam applicator, mop or a squeeze bottle. Apply the product to the surfaces to be cleaned, allow contact time of up to 5 minutes, brush or scour and then rinse or flush off with water.

Urinals : Use undiluted, apply as per one of the above methods. Apply to the surfaces to be cleaned including the step and corners, allow contact time, scrub with a brush or non scratch scouring material and rinse off with water.

To clean the urinal waste pipe, pour a small amount of BACSTOP down the waste pipe to clean body fats from the inside surfaces of the pipe.

Warning

BACSTOP is acidic. Avoid skin and eye contact. Gloves and safety goggles should be worn. Store away from metal products, oxidising agents and foodstuffs.

First Aid

If poisoning occurs contact a doctor of poisons information centre. PH 13 11 26. If swallowed do not induce vomiting, give a glass of water and seek medical advice. If skin contact does occur remove contaminated clothing and wash thoroughly with water. For eye contact, irrigate with water for 15 minutes and if irritation persists seek medical advice.

Packaging

BACSTOP is available in 5 and 15 litre containers.
