

BOOMER CLEAN

CHLORINATED, ANTI-SCALANT BOOM & SPRAY CLEANER

Description

BOOMER CLEAN is a chlorinated, anti-scalant, alkali based detergent formulated for the cleaning and decontamination of all agricultural spraying equipment.

Benefits

- ✓ Contains hard water softeners
- ✓ Anti-scalant formula to effectively reduce calcium and scale build-ups
- ✓ Dissolves all residues
- ✓ Lubricates pumps
- ✓ Cleans and disinfects
- ✓ Low foaming
- ✓ Safe to use on most metal and plastic parts

Where to Use

Boom Sprayer cleaner

Directions

BOOM SPRAYS

1. Between sprays or before spraying, mix 1 litre BOOMER CLEAN to 100 litres

of water and flush 10 litres of this mixture through each nozzle.

Leave for up to 30 minutes then repeat.

2. To decontaminate hard to clean residues, mix 3 litres BOOMER CLEAN

to 100 litres of water and flush 10 litres of this mixture through each nozzle.

Leave for up to 30 minutes then repeat.

3. Flush all equipment thoroughly with clean water after using BOOMER CLEAN

FOAM GENERATOR UNITS

Mix 3 litres BOOMER CLEAN to 100 litres of water and run unit for up to 30 minutes,

rinsing with clean potable water. Then remove all filters and screens and rinse off and replace

KNAPSACKS AND BACK MISTERS

Mix 50ml BOOMER CLEAN per 5 litres of water and flush through.

ORCHARD SPRAYERS

Mix 3 litres ABSOLUTE BOOMER per 100 litres of water and flush through system.

Packaging

BOOMER CLEAN is available in 20 and 200 litre drums.
