

CHLORWASH

MACHINE DISHWASHING POWDER

Description

CHLORWASH is a powdered chlorine based machine dishwashing compound used for the use in automatic washing machines. Suitable for domestic and commercial use.

Benefits

- ✓ Concentrated powdered detergent formulated for removing of fats, grease, oils, tea and coffee stains
- ✓ Contains an organic chlorine, which remains stable in heat and therefore is effective for long periods killing bacteria and bleaching out stains.
- ✓ Low foaming and free rinsing.
- ✓ Contains water softeners reducing scale build-up in machine interiors.
- ✓ Sanitises in low temperature washes.

Where to Use

One shot dishwashing powder for commercial or domestic use.

Directions

Commercial Machine: Add 60grms (1/4 of a cup) into water reservoir for the initial water fill. Add 5gms every 3 washes thereafter.

Domestic machine: Add 60grms (1/4 cup) into detergent hopper for each wash.

Warning

Avoid skin and eye contact.

First Aid

If poisoning occurs contact a doctor or poisons information centre. PH 13 11 26. If swallowed do not induce vomiting, give milk or water and seek medical advice. If skin contact does occur remove contaminated clothing and wash thoroughly with water. For eye contact, irrigate with water for 15 minutes. If irritation persists seek medical advice.

Packaging
