

DW-40

WATER DISPERSANT/CORROSION INHIBITOR

Description

DW-40 is a powerful multipurpose solution formulated for dispersing moisture, penetrating rust, protecting metal surfaces from rusting, stopping leaks and lubricating moving components.

Benefits

- ✓ DW-40 is highly effective in dispersing water in distributors and electrical systems for wet weather automotive starts.
- ✓ DW-40 quickly penetrates rusted components loosening rusted bolts, nuts and fixtures.
- ✓ DW-40 protects metal surfaces from corrosion providing effective protection under demanding conditions.
- ✓ DW-40 lubricates anything that squeaks binds, grates or squeals. Ideal for locks, hinges, springs and catches etc.

Where to Use

DW-40 can be used for a myriad of uses making DW-40 the most versatile item in your maintenance kit.

Directions

DW-40 may be applied by dipping, brushing or spraying. Saturate area to be treated and allow several minutes contact time before wiping away excess. For best rust inhibition results do not wipe surfaces to be protected.

Warning

Avoid ignition sources as DW-40 is combustible. Avoid eye contact.

First Aid

If poisoning occurs contact a doctor or Poisons Information Centre. PH 13 11 26. If swallowed DO NOT INDUCE VOMITING give a glass of water and seek medical advice. If skin contact occurs, remove contaminated clothing and wash skin thoroughly. For inhalation, remove to fresh air - lay down and rest, seek urgent medical attention. For eyes irrigate with water for 15 minutes and if irritation persists seek medical attention.

Packaging

DW-40 is available ex stock in 5, 20 and 200 litre containers.
