

MINE WASH

BIODEGRADABLE, HEAVY DUTY PRESSUREWASHING DEGREASER

Description

MINE WASH Degreaser is a readily biodegradable, water based degreaser formulated for heavy duty mining, automotive, transport and industrial use. MINE WASH Degreaser is a super concentrated, water based degreaser formulated specifically for the removal of oil and grease in demanding conditions in the general engineering, automotive, transport, mining and construction industries.

Benefits

- ✓ Water based, quick break biodegradable degreaser.
- ✓ Leaves a completely non- greasy surface.
- ✓ Low flash point – ideal for underground use.
- ✓ Powerful cleaner and degreaser for stubborn oil, grease and other stains on concrete surfaces.
- ✓ pH Neutral and Non Flammable.

Where to Use

Used in very low concentrations within pressure washers to remove grease and oil residues off equipment surfaces.

- Excellent for organic residue removal in parts and equipment washing.
- Mining equipment degreasing and cleaning
- Automotive and truck workshops and parts cleaning
- Factory and driveway floors where frequent oil stains may occur
- High pressure cleaning

Directions

MINEWASH Degreaser can be applied by brush, broom, mop, spray and through pressure washers.

Pressure Washing (Grease Residual Removal) - 1 part to 200 parts water

Pressure Washing (Heavy duty cleaning & Greasing) - 1 part to 50 parts water

Workshop Floor Degreasing - 1 part to 5 parts water

Equipment Degreasing - 1 part to 4 parts water

Warning
