

R.I.O.

ACIDIC DETERGENT

Description

R.I.O. is a blend of acids, emulsifiers, wetters and surfactants formulated to remove tenacious metalliferous deposits from painted surfaces, stainless steel and aluminium.

Benefits

- ✓ R.I.O. quickly removes tenacious metalliferous deposits from stainless steel, aluminium and painted surfaces.
- ✓ R.I.O. is simple and practical to use.
- ✓ R.I.O. has excellent rinsability providing streak free appearance.

Where to Use

Removal of red dirt staining off vehicles, equipment and other painted metal surfaces.

Directions

RED DIRT STAIN REMOVAL : Use neat

Apply by acid sprayer or broom working from bottom to top otherwise streaks will develop. Work on small areas at a time. Leave solution in contact for a few minutes before hosing off. DO NOT allow to dry on surface as streaking will result.

Warning

Highly corrosive substance. Avoid skin and eye contact. Contact with eyes even for periods can cause blindness. Avoid breathing vapours.

First Aid

If poisoning occurs contact a doctor or Poisons Information Centre. PH 13 11 26. If swallowed do not induce vomiting - give a glass of water and seek medical advice. If skin contact occurs remove contaminated clothing and wash skin thoroughly. Massage Calcium Gluconate Gel into affected area and seek medical advice. For inhalation remove to fresh air, lie down and rest - seek urgent medical attention. For eyes irrigate with water for at least 15 minutes and seek medical advice.

Packaging

R.I.O. is available in 5, 25 and 200 litre containers.
