

SUPER SOLVE

CONCENTRATED, WATER SOLUBLE, SOLVENT INDUSTRIAL DEGREASER

Description

SUPER SOLVE has a unique formulation, in which water can be added to the product to form a thick solution, allowing product to “cling” to vertical surfaces and increase degreasing power. SUPER SOLVE combines the power of hydrocarbon solvents with the economy and ease of water dilution. The SUPER SOLVE diluted solution provides exception degreasing power and an economic solution for extra heavy duty degreasing tasks.

Benefits

- ✓ EXTRA Heavy Duty degreaser
- ✓ “Cling” factor, ensuring time to adhere to surface and allowing penetration
- ✓ Water soluble and easy to use
- ✓ Concentrated and Economical once diluted with water

Where to Use

Ideal for heavy vehicles, road working equipment or where heavy grease removal is required. Used to remove and dissolve:

- ✓ Tar
- ✓ Asphalt
- ✓ Road film
- ✓ Black Jack and Heavy Grease
- ✓ Waxes.

Directions

Heavy Grease Removal – mix 1 part Super Solve with 4 parts water

Tar/Asphalt/Bitumen Removal - mix 1 part Super Solve with 3 parts water

1. Spray or Brush onto surface.
2. Allow 5 minutes contact time
3. Rinse off with water or high pressure off.

Warning

Avoid contact with skin and eyes.
Extinguish all ignition sources.

First Aid

If poisoning occurs contact a doctor or Poisons Information Centre. PH 13 11 26.
If swallowed do not induce vomiting, give a glass of water and seek medical advice.
For inhalation, remove patient to fresh air, lay down and rest and seek urgent medical attention. If skin contact does occur remove contaminated clothing and wash thoroughly with water. For eye contact, irrigate with water for 15 minutes and if irritation persists seek medical advice.

Packaging

SUPER SOLVE is available in 5, 25 and 200 litre containers.
