

# SECONDARY ALKALI SOLUTION

## LOW FOAMING ALKALI LIQUID DETERGENT

### DESCRIPTION

SECONDARY ALKALI SOLUTION is specifically formulated for removal of fats and protein deposits in food and beverage processing plants. SECONDARY ALKALI SOLUTION is a concentrated heavy duty cleaner and degreaser and can be used for cleaning walls, floors, ceilings, equipment etc in food processing areas.

### APPLICATION

SECONDARY ALKALI SOLUTION has been formulated for cleaning of food processing equipment but is ideal for use in recirculating systems. For recirculation systems it has been designed for use every evening and to be used in conjunction with PRIMARY ACIDIC SOLUTION.

### FEATURES AND BENEFITS

- Softens water and prevents hard water deposits.
- Low foaming formulation.
- Free rinsing.
- Excellent penetration action to prevent redeposition occurring.
- Highly concentrated for economy in use.

### DILUTIONS

#### **For Recirculation Systems Daily Use**

Use for a standard solution 20mls of SECONDARY ALKALI SOLUTION to 10L of hot water at 65-70 degrees Celsius. A cold water rinse is recommended prior to alkali wash and a hot water rinse after.

#### **Manual Equipment Cleaning**

- |                  |                         |
|------------------|-------------------------|
| o Heavy soilage  | 1 part - 5 parts water  |
| o Medium soilage | 1 part - 30 parts water |
| o Light soilage  | 1 part - 60 parts water |
